HOME MODULAR KITCHEN MODERN WARDROBES TV UNIT COMMERCIAL DESIGN

Think you need something to separate your living from the dining ? Or as decorative part in bedroom or other rooms Or perhaps the pooja room from the rest of the living room...!

D O O R

You could also add jalis as doors to wall niches or pooja units.

You will love how these dainty additions
elevate the ambiance of your home as well.

F O Y E R

A foyer gives a fitting entrance to a home;
so doing it up in style creates a positive impression on your
guests.

Moreover, having an entry passage in your home is considered to be a good practice for vastu. However, not all homes have foyers.

F O Y E R

A jali partition can help create a foyer where there is none. In case the foyer exists, it helps add an ornate touch and also gives a sneak peek into your home.

Use them in TV cabinets as a one of a kind design
or as a quirky yet elegant headboard,
the options are endless.

As an Accessory

Jali designs can be used in a number of ways and should
not be limited to living spaces. The most
innovative designs come from jali designs
used in living rooms & bedrooms.

As an Accessory

You can't go wrong with jali work so, let the creative juices flow and use it any way you like.

In the Pooja Room

We are almost convinced that jalis belong to pooja rooms and pooja corners at home.

As a Part of Decor

An easy-peasy way to add drama
to your interiors ?
Shake things up with a jali...!
These work as elegant
backdrops in living rooms or entryways.

You could also find quirky ways to add them to your space,
like concealing a boring power board with an
intriguing jali like this home did. This tree design with backlit
give more attractiveness to your home.

For Ceilings Decor

The design ideas of a ceiling range from false ceiling to an intricate jali design and all of them can really jazz up the living space. This is the reason why they should not be ignored.

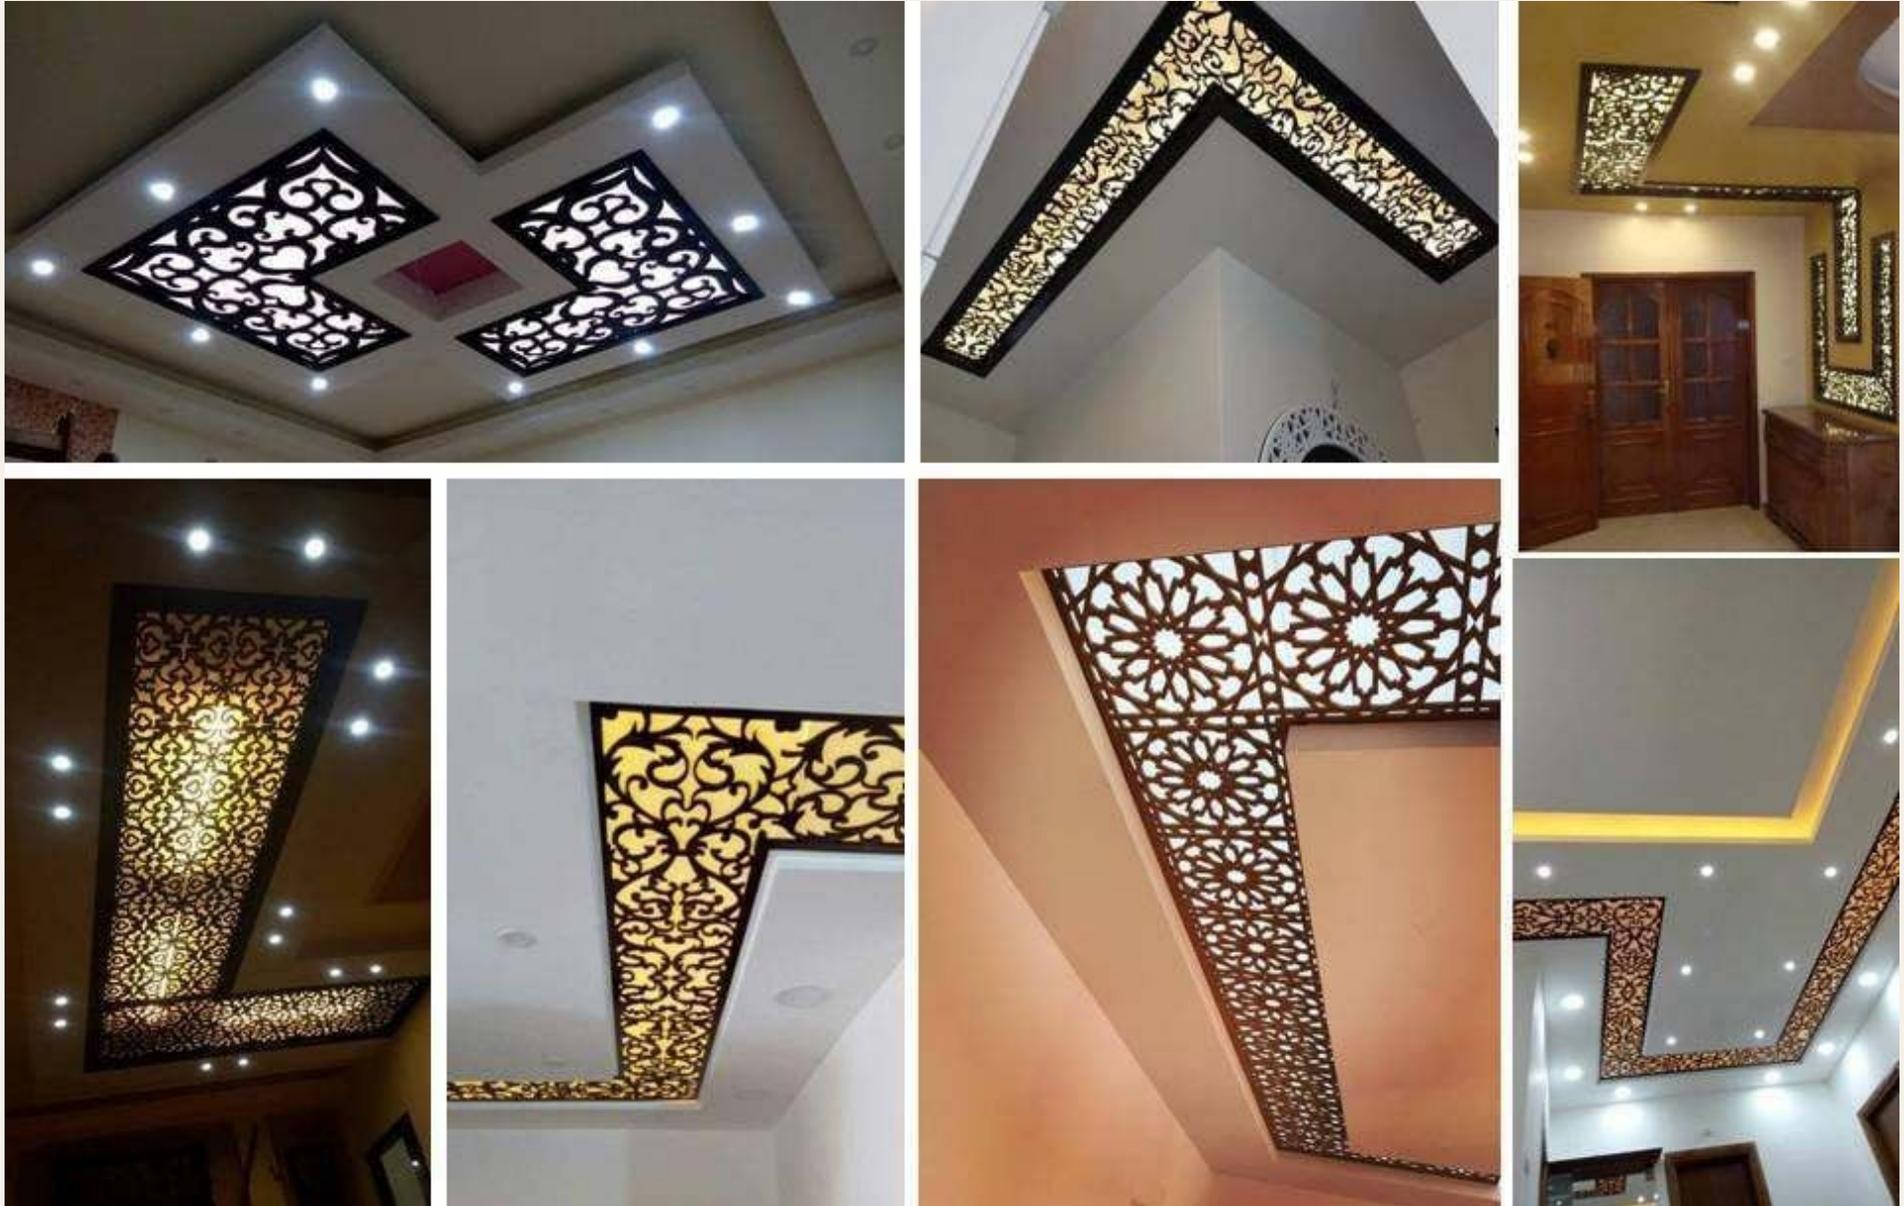

For Ceilings Decor

Cove lights are such a rage today as they offer such an alluring charm to any place they are added to.

Place the lights in a pattern that complements the rest of the room.

For Ceilings Decor

Go bold and create some magic with Geometry or carving designs on the ceiling.
This design is for the bold and for the quirky.
